DISPOSABLES FOR PETS

It's a well known fact that cats are finicky. But did you know that cats and dogs, for that matter, prefer eating out of a clean bowl? As a concerned pet owner, we are providing our pets with clean bowls at every feeding, which means a lot of washing pet bowls.

In this day and age, more and more of us are turning to disposables to make our lives easier and to provide a cleaner environment. Disposable plates, bowls and cups have been around for many years. We think disposables should be available for all members of your family, including your pets.

Our disposable bowls are environmentally safe and recyclable - and made in the U.S.A.

EASY TO USE

Our pet dish is designed with a hinged rim that keeps out debris as it holds the disposable bowls in place. When you remove the top soiled bowl, a clean one pops up and you're ready for the next feeding. For your convenience, the **Dish-It-Up®** Pet Dish Feeder/Dispenser can hold up to 35 disposable bowls. The disposable bowls are available in packs of 30. They are made of smooth plastic that can be easily washed and reused if desired. In the event you should temporarily run out, you can use the permanent bowl that is engineered as part of the pet dish feeder/dispenser.

The **Dish-It-Up®** Pet Dish Feeder/Dispenser comes with a skid-proof bottom and is currently available in cranberry red and snow white.

Always a clean bowl ready for your pet ...

just flip, toss and close.

KEEP IT CLEAN

We think it is important to provide a clean environment for your pets to keep them healthy for a long time. Especially when feeding your pet wet food or water, our pet dish is the answer to dealing with the mess that pets tend to leave behind.

Serving your pet's food and water in a clean bowl at every feeding makes good sense. And, saving yourself time from cleaning up the mess is an added bonus.
